Electric Chain Hoists **BUDGIT®**

Man-Guard® Electric Chain
Capacities: 1/4 - 3 Tons

- Standard lift 10' (other lifts available).
- Man-Guard® overload protection.
- Two-speed models available - precise load spotting.
- Link or roller type load chain.
- Push button control.
- Corrosion resistant models available.
- Choose suspensions and accessories.

XL Electric Chain
Capacities: 2 - 7 1/2 Tons

- Standard lift 10' (other lifts available).
- 10-pocket liftwheel - smooth operation.
- Gearing operates in oil bath for long life and quiet operation.
- Heavy-duty, multiple braking system.
- Standard screw-type limit switches.
- Thermally protected, heavy-duty motor.
- Standard protector overload device.
- Factory tested at 125% rated capacity.
- All suspensions and accessories available.

ShopHoist Electric Chain
Capacities: To 1000 Lbs.

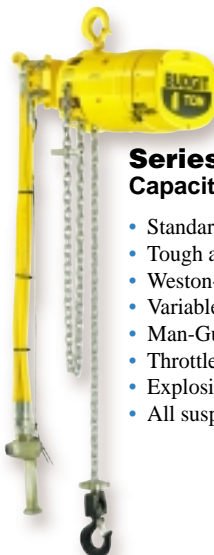

- Standard lift 10' (other lifts available).
- Perfect for the shop or garage.
- 12" length, weighs less than 35 lbs.
- Lifetime lubricated gear case.
- Single or three-phase available.
- Overload limiting device standard.
- H4 rating for three-phase power.
- Hook mount.

Air Hoists **BUDGIT®**

Series 2200 Air Chain
Capacities: 1/4 - 1 Ton

- Standard lift 10' (other lifts available).
- Compact design uses aluminum alloy frame.
- Variable speed control.
- Roller or link chain.
- Pull cord or pendant throttle control.
- Unlimited duty cycle.
- Explosion proof models available.
- Hook or lug mount.

Series 6000 Air Chain
Capacities: 1 - 3 Tons

- Standard lift 10' (other lifts available).
- Tough aluminum alloy frame.
- Weston-type load brake.
- Variable speed control.
- Man-Guard® overload device.
- Throttle pendant control.
- Explosion-proof models available.
- All suspensions - air powered trolley.

Air Balancer
Capacities: To 500 Lbs.

- Standard reach is 144 inches.
- 18-pocket, oblique lay liftwheel - for smooth operation.
- Versatile float capability allows operator 16 inch load positioning by hand.
- Unlimited duty cycle.
- Ergonomic handshake-style pendant control.
- Hook or lug suspension.

I-Beam Trolleys **BUDGIT®**

Push-Type or Hand Geared Trolleys
Capacities: 3/4 - 20 Tons

- Adjustable to fit wide range of beam flange widths.
- Spark resistant models available.
- Wrap-around side plates for product and operator protection.
- Smooth rolling.
- Spark resistant models available.
- Use with hook or lug mounted hoists.

Electric Motor Driven Trolley
Capacities: 1/4 - 7 1/2 Tons

- Adjustable to fit wide range of beam flange widths.
- Forms an integral hoist and trolley combination.
- NEMA-4 push button, cable with steel strain relief-standard.
- Single and two-speed models.
- Choose a wide range of options and accessories.

Air Motor Driven Trolley
Capacities: 1/4 - 3 Tons

- Adjustable to fit wide range of beam flange widths.
- Forms an integral hoist and trolley combination.
- 8-Vane motor provides smooth starts, high control.
- Variable speed thru pendant throttle control.
- Choose a wide range of options and accessories.

Hand Chain Hoists **BUDGIT®**

Series USA
Hand Chain
Capacities: 1/4 - 6 Tons

- Standard lift 8' (other lifts available).
- Portable - light weight housing
- Overload device - standard.
- Overload device.
- One-piece steel load sprocket and sprocket gear.
- Hook latches on all models.
- Spark & corrosion resistant models available.
- A real "Made in America" competitor.

Hi-Cap2
Hand Chain
Capacities: 1/4 - 12 Tons

- Time-tested service life and reliability.
- One-piece aluminum alloy frame.
- Large steel gears for *max* ease of operation.
- Automatic mechanical load brake
- Hook latches on all models.
- Spark & corrosion resistant models available.

Steel Frame
Hand Chain
Capacities: 1/4 - 25 Tons

- Standard lift 8' (other lifts available).
- Strong, reliable steel frame.
- All internal parts are alloy steel with anti-friction bearings.
- Castings are all steel.
- Easy to service and maintain design.
- Fully enclosed - indoor or outdoor use.
- Hook latches on all models.
- Spark & corrosion resistant models available.

Lever Hoists **TUGIT®**

Army Type
Trolley Hoist
Capacities: 1/2 - 2 Tons

- Standard lift 8' (other lifts available).
- Adjustable to fit wide range of beam flange widths.
- Forms an integral hoist and trolley combination.
- Low headroom design.
- Hoist provides features of the steel frame line.
- Spark resistant models available.
- Available with push or hand geared trolley.

12" Handle Lever Hoist
Capacities: 3/4 - 3 Tons

- Lightweight aluminum alloy construction for toughness and portability.
- Ideal for close-quarter operation.
- Position and spot loads precisely with double pawl.
- Durable powder coat finish - standard.
- Hardened alloy steel, link-type load chain for strength and durability.
- Weston-type, automatic load brake.
- Free wheel control permits free travel of chain for fast attachment of load.
- Swivel hooks and hook latches.

21" Handle Lever Hoist
Capacities: 3/4 - 6 Tons

- Lightweight aluminum alloy construction for toughness and portability.
- Position and spot loads precisely with double pawl.
- Hardened alloy steel, link-type load chain for strength and durability.
- Weston-type, automatic load brake.
- Free wheel control permits free travel of chain for fast attachment of load.
- Swivel hooks and hook latches.

Wire Rope Hoists **SHAW-BOX®**

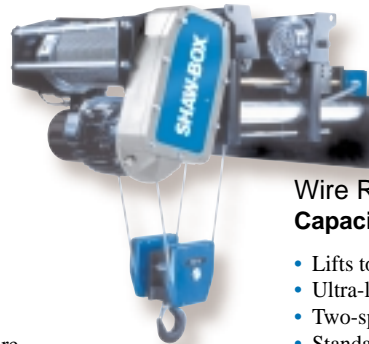

800 Series
Wire Rope Hoist
Capacities: 1/2 - 5 Tons

- Lifts to 50 feet.
- Provides years of reliable service.
- Compact, economically priced.
- Special applications available.
- Choose a variety of control, explosion-proof and air-powered options.

700 Series
Wire Rope Hoist
Capacities: 1 - 20 Tons

- Lifts to 250 feet
- Designed for light to heavy applications.
- Industry's most versatile wire rope hoist.
- Special applications available.
- Choose a variety of control, explosion-proof and air-powered options.

World Series
Wire Rope Hoist
Capacities: 5 - 10 Tons

- Lifts to 40 feet
- Ultra-low headroom.
- Two-speed hoist and trolley.
- Standard features - *the most*.
- By design - easy to service and maintain.
- *Best Buy in its Class.*

Crane Trolleys **SHAW-BOX®**

700 Series
Crane Trolleys
Capacities: 5 - 20 Tons

- Lifts to 75 feet
- Designed for light to heavy applications.
- Most versatile top-running trolley in its class.
- Special applications available.
- Single reeved or true vertical lift (plumb) versions available.
- Choose a variety of control, explosion-proof and air-powered options.

DMR Series
Crane Trolleys
Capacities: 7 1/2 - 60 Tons

- Lifts to 52 feet
- Designed for medium to heavy applications.
- Special applications available.
- True vertical lift version - standard.
- Choose a variety of control, explosion-proof and air-powered options.

Loadmax
Crane Trolleys
Capacities: 10 - 30 Tons

- Lifts to 141 feet
- Designed for heavy and special applications.
- Long-life, ease of maintenance.
- Faster hoisting speeds.
- Extremely versatile trolley hoist.
- Choose a variety of controls and options.

Bridge Crane Kits **SHAW-BOX® BUDGIT®**

Single Girder, Top-Running
Crane Bridge Kits
Capacities: 1/4 - 10 Tons

- Spans to 60 Feet.
- Available in push, hand-gear or motor-driven versions.
- Choose a variety of control electrification options.
- Electric or air drives.
- Available for standard or explosion-proof applications.

Single Girder, Under-Running
Crane Bridge Kits
Capacities: 1/4 - 10 Tons

- Spans to 60 Feet.
- Available in push, hand-gear or motor-driven versions.
- Choose a variety of control electrification options.
- Electric or air drives.
- Available for standard or explosion-proof applications.

Double Girder, Top-Running
Crane Bridge Kits
Capacities: 1 - 100 Tons

- Spans to 120 Feet.
- Available in hand-gear or motor-driven versions.
- Choose a variety of control electrification options.
- Electric or air drives.
- Available for standard or explosion-proof applications.

Accessories **SHAW-BOX® BUDGIT® TUGIT®**

Choose a wide variety of accessories, options and support equipment to complete your important application

- Chain Containers
- Electric Cord and Air Hose Reels
